Notice to Readers

For the convenience of readers and for information purpose only, the independent auditors' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' review report and consolidated financial statements shall prevail.

2023 Independent Auditors' Report (Parent Company Only Financial Statements)

To the Board of Directors and Shareholders of AXIOMTEK CO., LTD.

Opinion

We have audited the accompanying parent company only balance sheets of AXIOMTEK CO., LTD. (hereinafter referred to as "Axiomtek" or "the Company") as at December 31, 2023 and 2022, and the related statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to parent company only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in order to comply with the Regulations Governing the Preparations of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Individual Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in order to comply with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the individual financial statements of the current period. These matters were addressed in the context of our audit of the individual financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the parent company only financial statements for the year ended December 31, 2023 are stated as follows:

Existence and Occurrence of Sales of Goods

Description

Please refer to Note 4(31) for accounting policy on revenue recognition and Note 6(20) for details of operating revenue.

The Company is primarily engaged in the manufacturing, sales and post-sales service of industrial computer and embedded board products. Apart from long-term partner companies, due to global technological changes, industrial computer orders are susceptible to project cycles. Additionally, The Company is committed to developing new markets and undertaking new projects, resulting in some customers entering the top ten sales targets list, significantly impacting revenue. We believed that the list of the top ten new sales clients with a greater increase in the proportion to the Company's revenue had a material impact on the financial statements. We considered the existence and occurrence of sales of goods from these clients as a key audit matter.

How our audit addressed the matter

We have performed primary audit procedures for the above matter as follows:

- 1. Evaluated the Company's internal control procedures for recognition of sales of goods and tested the effectiveness of internal control related to sales of goods.
- 2. Inspected relevant background information on the top ten sales clients.
- **3.** Obtained and randomly checked relevant receipts or invoices of the top ten new sales clients and the top ten sales clients with a greater increase in the proportion to the Company's revenue this year and confirmed the appropriateness of revenue recognition.

Allowance for Inventory Valuation Losses

Description

Please refer to Note 4(12) for accounting policies on inventory valuation, Note 5(2) for uncertainty of accounting estimates and assumptions in relation to inventory valuation losses and Note 6(4) for details of inventories. As at December 31, 2023, the Company's inventories and allowance for inventory valuation losses amounted to NT\$1,169,566 thousand and NT\$75,000 thousand, respectively.

The Company is primarily engaged in the research and development, manufacturing and sales of industrial computer products. Due to rapid technological innovation and fluctuations in market prices, the Company recognizes inventories at the lower of cost and net realizable value, and the net realizable value is estimated based on historical experience. An allowance for inventory valuation losses is provided for those inventories aged over a certain period of time and individually identified as obsolete or damaged.

As the amounts of inventories are material, the types of inventories vary, and the estimation of net realizable value for individually obsolete or damaged inventories is subject to management's judgment, we considered the allowance for inventory valuation losses as a key audit matter.

How our audit addressed the matter

We have performed primary audit procedures for the above matter as follows:

- 1. Ensured consistent application of Company's accounting policies in relation to allowance for inventory valuation losses and assessed the reasonableness of these policies.
- 2. Evaluated the reasonableness of inventories individually identified as obsolete or damaged with supporting documents, validated the appropriateness of system logic of inventory aging report utilized by management to ensure proper classification of inventories aged over a certain period of time and reperformed the calculation.
- 3. Discussed with management the net realizable value of inventories aged over a certain period of time and individually identified as obsolete or damaged, validated respective supporting documents, and agreed to information obtained from physical inventory.

Other Matter- Audit by the Other Independent Accountants

We did not audit the financial statements of certain investments accounted for under the equity method. These investments accounted for under the equity method amounted to NT \$231,507 thousand constituting 4.15% of total assets as of December 31, 2022, respectively, and other comprehensive income (loss) of subsidiaries, associates, and joint ventures accounted for under equity method amounted to NT\$22,384 thousand constituting 3.26% of total comprehensive income for the years ended December 31, 2022, respectively. The financial statements of these investments accounted for under the equity method were audited by other independent auditors whose reports thereon have been furnished to us and our opinion expressed herein, insofar as it relates to the amounts included in the separate financial statements and information disclosed relative to these investments, is based solely on the reports of other independent auditors.

Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in order to comply with the "Regulations Governing the Preparations of Financial Reports by Securities Issuers", and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including Audit Committee, are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Parent Company Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:

- 1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the Parent Company Only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

AXIOMTEK CO., LTD. NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022 (Expressed in thousands of New Taiwan dollars)

1. ORGANIZATION AND OPERATIONS

Axiomtek Co., Ltd. (hereinafter referred to as "the Company" or "Axiomtek") was incorporated in the Republic of China (R.O.C) in May 1990 and the Company's common shares were officially listed on the Taipei Exchange on April 28, 2005. The Company is mainly engaged in designing, manufacturing and sales of PC-based industrial computer products and peripherals. The Company provides product lines of Industrial PCs (IPCs), Single Board Computers (SBCs), System on Modules (SoMs), Fanless and Rugged Embedded Systems (eBOX and rBOX), Intelligent Transportation Systems (tBOX and UST), Industrial IoT Gateway, Industrial EtherCAT Master solution, Touch Panel Computers (TPCs), Medical Panel Computers (MPCs), Digital Signage Solutions (DSSs), and Network Appliances (NAs) products.

2. <u>THE DATE OF AUTHORISATION FOR ISSUANCE OF THE PARENT COMPANY ONLY</u> <u>FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION</u>

The parent company only financial statements were authorized for issuance by the Board of Directors on February 22, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC").

New standards, interpretations and amendments endorsed by the FSC effective from 2023 are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and	January 1, 2023
liabilities arising from a single transaction'	
Amendments to IAS 12, "International Tax Reform—Pillar Two	May 23, 2023
Model Rules"	

The above standards and interpretations have no significant impact on the Company's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company.

New standards, interpretations and amendments endorsed by the FSC effective from are 2024 as follows:

	Effective date by International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or noncurrent'	January 1, 2024
Amendments to IAS 1, "Non-current liabilities with covenants" Amendments to IAS7 and IFRS7, "Supplier finance arrangements"	January 1, 2024 January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

Effective date by
International Accounting
Standards Board
To be determined by
International Accounting
Standards Board
January 1, 2023
January 1, 2023
January 1, 2023
January 1, 2025
_

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The principal accounting policies applied in the preparation of the parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) <u>Statement of compliance</u>

These separate financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Statements by Securities Issuers.

(2) <u>Basis of preparation</u>

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
 - (A) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (B) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a

higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan dollars (NTD), which is the Company's functional and the Company's presentation currency.

- A. Foreign currency transactions and balances
 - (A) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
 - (B) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
 - (C) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, nonmonetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
 - (D) Foreign exchange gains and loss based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.
- B. Translation of foreign operations
 - (A) The operating results and financial position of all the Company entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in Exchange differences on translation of foreign operations.
 - (B) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interests in this foreign operation. In addition, if the Company still retains partial interests in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in these foreign operations.
 - (C) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(4) <u>Classification of current and non-current items</u>

- A. Assets that meet one of the following criteria are classified as current assets; otherwise, they are classified as non-current assets:
 - (A) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (B) Assets held mainly for trading purposes;
 - (C) Assets that are expected to be realized within twelve months from the balance sheet date;
 - (D) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

All assets that do not meet the above criteria are classified as non -current assets.

- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise, they are classified as non-current liabilities:
 - (A) Liabilities that are expected to be paid off within the normal operating cycle;
 - (B) Liabilities arising mainly from trading activities;
 - (C) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (D) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All liabilities that do not meet the above criteria are classified as non-current liabilities.

(5) <u>Cash equivalent</u>

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits that meet the above definition and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

- (6) <u>Financial assets at fair value through profit or loss</u>
 - A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
 - B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
 - C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- (7) <u>Financial assets measured at amortized costs</u>

The Company's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

- (8) <u>Accounts and notes receivable</u>
 - A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
 - B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9) <u>Impairment of financial assets</u>

For debt instruments measured at fair value through other comprehensive income and accounts receivable that have a significant financing component, at each end of the financial reporting period, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(10) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Operating leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(12) <u>Inventories</u>

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Investments accounted for under equity method

- A. Subsidiaries are all entities (including structured entity) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Unrealized gains on transactions between the Company and its subsidiaries are eliminated to the extent of the Company's interest in the subsidiaries. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equal or exceeds its interest in the subsidiary, the Company should continue to recognize losses in proportion to its ownership.
- D. When the Company loses control of a subsidiary, the Company remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss, on the same basis as would be required if all the related assets or liabilities were disposed of. That is, other comprehensive income in relation to the subsidiary should be reclassified to profit or loss.

- E. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20% or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- F. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equal or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- G. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognizes change in ownership interests in the associate in "capital surplus" in proportion to its ownership.
- H. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- I. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- J. According to "Regulations Governing the Preparation of Financial Reports by Securities Issuers", profit and other comprehensive income in the separate financial statements should be the same as profit and other comprehensive income attributable to shareholders of the parent in the parent company only financial statements, and the equity in the separate financial statements should be the same as the equity attributable to shareholders of the parent in the parent company only financial statements.
- (14) Property, plant and equipment
 - A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
 - B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
 - C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
 - D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual

values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

Buildings	10 -	50 years
Machinery	2 -	21 years
Tools	2 -	6 years
Testing equipment	2 -	11 years
Office Equipment	3 -	15 Years
Leasehold improvements	2 -	10 Years
Other equipment	2 -	10 Years

(15) Leasing arrangements (lessee) - right-of-use assets/ lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
 - (A) Fixed payments, less any lease incentives receivable; and
 - (B) Variable lease payments that depend on an index or a rate.

The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following: (A) The amount of the initial measurement of lease liability;
 - (B) Any lease payments made at or before the commencement date; and
 - (C) Any initial direct costs incurred by the lessee.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 2 to 16 years.

- (17) Intangible assets
 - A. Trademark

Trademark is stated at cost and amortized on a straight-line basis over its estimated useful life of 10 years.

B. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 2 to 5 years.

C. Goodwill Goodwill arises in a business combination accounted for by applying the acquisition method.

(18) Impairment of non-financial assets

- A. The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.
- B. The recoverable amounts of goodwill shall be evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or group of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.
- (19) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds net of transaction costs and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

- (20) Notes payable and accounts payable
 - A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
 - B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(21) Convertible bonds payable

Convertible corporate bonds issued by the Company contain conversion options (that is, the bondholders have the right to convert the bonds into the Company's common shares by exchanging a fixed amount of cash for a fixed number of common shares), put options. The Company classifies the bonds payable and derivative features embedded in convertible corporate bonds on initial recognition as a financial asset or an equity instrument ('capital surplus - stock options') in accordance with the substance of the contractual arrangement and the definitions of a financial asset and an equity instrument. Convertible corporate bonds are accounted for as follows:

- A. Call provision embedded in convertible corporate bonds are recognized initially at net fair value as 'financial assets at fair value through profit or loss'. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognized as 'gain or loss on valuation of financial assets at fair value through profit or loss'.
- B. Bonds payable of convertible corporate bonds is initially recognized at fair value and subsequently stated at amortized cost. Any difference between the proceeds and the redemption value is accounted for as the premium or discount on bonds payable/ preference share liabilities and presented as an addition to or deduction from bonds payable, which is amortized in profit or loss as an adjustment to the 'finance costs' over the period of bond circulation using the effective interest method.
- C. Conversion options embedded in convertible corporate bonds issued by the Company, which meet the definition of an equity instrument, are initially recognized in 'capital surplus stock options' at the residual amount of total issue price less amounts of 'financial assets or financial assets at fair value through profit or loss' and 'bonds payable net' as stated above. Conversion options are not subsequently remeasured.
- D. Any transaction costs directly attributable to the issuance of convertible corporate bonds are allocated to the liability and equity components in proportion to the allocation of proceeds.
- E. When bondholders exercise conversion options, the liability component of the bonds (including 'bonds payable' and 'financial assets at fair value through profit or loss') shall be remeasured on the conversion date. The book value of common shares issued due to the conversion shall be based on the adjusted book value of the above-mentioned liability component plus the book value of capital surplus stock options.
- (22) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(23) Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and reported in the net amount in the balance sheets when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

- (24) Non-hedging and embedded derivatives
 - A. Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or losses. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.
 - B. A mixed contract of financial assets embedded in derivatives, at the time of the original recognition, determines that the overall hybrid tool is classified as financial assets measured at fair value through gains and losses, financial assets measured at fair value through other consolidated gains and losses, and financial assets measured at amortized cost.
 - C. The non-financial asset hybrid contract embedded in the derivative instrument determines whether the embedded derivative is closely related to the economic characteristics and risk of the main contract in the original recognition according to the terms of the contract to determine whether to separate or not. When it is closely related, the overall blending tool is treated according to its nature according to appropriate criteria. When it is not closely related, the derivative is separated from the principal contract and is treated as a derivative.

The principal contract is treated according to its nature on the basis of appropriate criteria; or the overall recognition at the original recognition is a financial liability measured at fair value through profit or losses.

(25) <u>Provisions for liabilities</u>

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation at the end of the financial reporting period, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

(26) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Pensions

(A) Defined contribution plans

For defined contribution plans, the Company has no legal or constructive obligation to make additional contributions after a fixed amount is contributed to a public or privately managed and independent pension fund. The contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

- (B) Defined benefit plans
 - i. Defined benefit plans are different from defined contribution plans. The amount of pension benefits for employees at retirement is often dependent upon one or more factors, such as age, length of service and salary amount. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employee will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Company uses interest rates of government bonds (at the balance sheet date) instead.
 - ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

- (C) Employees' compensation and directors' remuneration
 - Employees' compensation and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.
- (27) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and nonmarket vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

- (28) Income tax
 - A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
 - B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
 - C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
 - D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
 - E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts

and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of equipment or technology and research and development expenditures to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.
- (29) Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction from the proceeds.

(30) <u>Dividends</u>

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Board of Directors. Cash dividends are recorded as Other payables; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

- (31) <u>Revenue recognition</u>
 - A. Sales of goods
 - (A) The Company manufactures and sells industrial computer-related products. Sales are recognized when control of the products has transferred, being when the products are delivered to the customers, the customers have full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customers' acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customers, and either the customers have accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
 - (B) The sales revenue of industrial computer-related products is recognized according to the quantity of goods purchased by the customer and the price agreed upon after the quotation of the product item. The terms of collection for sales transactions are agreed upon in accordance with the generally accepted commercial transaction terms.
 - (C) The Company's obligation to provide a refund for faulty products under the standard warranty terms is recognized as a provision.
 - (D) A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.
 - B. Revenue from Labor Services Revenue from labor services comes from product development and provision of extended warranty and maintenance services. When the transaction results of labor services can be reliably estimated, revenues are recognized based on the level of labor provided.
 - C. Acquisition of customer contract costs Although the incremental costs incurred by the Company to obtain a customer contract are expected to be recoverable, the relevant contract period is less than leap year, so these costs are recognized as expenses when incurred.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF</u> <u>ASSUMPTION UNCERTAINTY</u>

The preparation of the parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below.

(1) Critical judgements in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realizable value, the Company must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation. As of December 31, 2023, the carrying amount of inventories was \$1,094,566.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	Dece	mber 31, 2023	December 31, 202			
Cash on hand and petty cash	\$	511	\$	539		
Checking accounts and demand deposits		321,849		284,971		
Time deposits		761,707		488,637		
	\$	1,084,067	\$	774,147		

A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

- B. B. Except for the cash and cash equivalents pledged to others as shown in Note 8 that was transferred to 'financial assets at amortized cost', the Company has no cash and cash equivalents pledged to others.
- (2) Financial assets at fair value through profit or loss current

	December 31, 2023	December 31, 2022
Current items:		
Financial assets at fair value through profit or loss		
Derivatives (Convertible bond – call provision)	\$ 400	\$ -
Evaluation adjustment	320	-
	\$ 720	\$-

A. For the years ended December 31, 2023 and 2022,, the Company net gain were \$320 and \$0, respectively.

B. The Company has no Financial assets at fair value through profit or loss - current pledged to others.

(3) Notes and accounts receivable (including related parties)

	_December 31, 202			nber 31, 2022
Notes receivable	\$	2,961	\$	5,583
Less: Loss allowance				_
	\$	2,961	\$	5,583
Accounts receivable	\$	114,146	\$	186,053
Accounts receivable - related parties		249,168		449,061
Less: Loss allowance	((62)		113)
	\$	363,252	\$	635,001

A. Information relating to the ageing analysis of accounts receivable that were past due is provided in Note 12(2).

B. As of December 31, 2023 and 2022, notes and accounts receivable were all from contracts with customers. And as of January 1, 2022, the balance of receivables from contracts with customers amounted to \$515,950.

C. The Company does not hold financial assets as security for accounts receivable.

D. Information relating to credit risk is provided in Note 12(2).

(4) <u>Inventories</u>

A. Domestic unsecured conversion of corporate bonds issued by the Company.

(A) Issuance conditions for the Second Domestic Unsecured Convertible Corporate Bonds Conversion in the Company are as follows:

i. The Company is approved by the relevant authorities to raise and issue the Second Domestic Unsecured Convertible Corporate Bonds Conversion (referred to as " Convertible Corporate Bonds "), the total face value of the issuance is \$800,000, and the actual total issuance is \$848,003, at the coupon rate of 0%, for an issuance period of 3 years, circulation period from August 28, 2023 to August 28, 2026. When this conversion company debt expires, it will be repaid in cash in the denomination of the bond. Convertible Corporate Bonds has been listed

for trading at the Securities Counter Trading Center as of August 28, 2023.

- ii. Unless (1) the period for suspension of transfer registration of common stock required by laws, (2) 15 business days prior to the date for suspension of transfer registration of allocated dividends requested by the Company, the date for suspension of transfer registration of cash dividends or the date for suspension of transfer registration of cash capital increase until the record date for allocation of rights, and (3) from the date of capital decrease until the day prior to the trading of stock swapped upon capital decrease, the bond holders may apply to the Taiwan Depository & Clearing Corporation (TDCC) (hereinafter referred to as the "Depository Corporation") who would then notify the Company's stock agent to convert the Bond into the Company's common shares pursuant to the Regulations at any time one month after the issuance (November 29 2023) and throughout the duration (until August 28, 2026) of the bond.
- iii. The conversion price of this conversion company debt shall be determined according to the pricing model stipulated in the conversion method, and the conversion price shall be adjusted in the event of the anti-dilution clause of the company in accordance with the pricing model stipulated in the conversion method.
- From the day following the 3rd month of issuance (November 29 2023) of the iv. bonds until 40 days(July 20, 2026) prior to expiration of the duration, if the closing price of the Company's common shares at Taipei Exchange exceeds the current conversion price by more than 30% for 30 consecutive business days, the Company may send the "Notice of Call" to be matured in 30 days (the time limit shall commence from the Company's service date, and the record date of the call shall be the date when the time limit expires, and the conversion suspension period for the corporate bonds should not fall in the time limit) to the bond holders (those referred to the roster of creditors within five business days prior to the service date of the Notice of Call, while the investors who acquire the bonds through exchange or due to other causes subsequently, if any, shall be notified by public notice) via registered mail within 30 business days. Meanwhile, the Company shall ask Taipei Exchange in writing to post a public announcement, and shall call the corporate bonds held by the bond holders at the face value in cash within five (5) business days upon the record date.
- v. In accordance with the conversion scheme, all debts of the Company recovered (including by the Securities Counter Trading Centre), repaid or converted will be cancelled, and all rights and obligations that are still attached to this conversion company's debt will also be eliminated and no longer issued.
- (B) As of December 31, 2023, the face value of this convertible corporate bond of \$100 has been converted to 1,000 shares of common stock, completed on December 25, 2023.
- (C) As of December 31, 2023, the Company has not bought back the bonds from the securities counter trading center.
- (D) Since September 5, 2023, the Company's ex-rights and dividend, the conversion price has been recalculated according to the provisions of this bond issuance and conversion, from \$109.5 to \$97.2.

B. When issuing convertible corporate bonds, the equity conversion options amounting to \$87,971 were separated from the liability component and were recognized in 'capital surplus-stock warrants' in accordance with IAS 32. The call options embedded in bonds payable were separated from their host contracts and were recognized in 'financial assets at fair value through profit or loss' in net amount \$400 in accordance with IFRS 9 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts. The effective interest rate of the bonds payable after such separation is 0.156%.

(14) Pensions

(A) The Company has a defined benefit pension plan in accordance with the Labor A. Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions to cover the deficit by next March.

-	December 31, 2023		Decem	ber 31, 2022

- (D) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.
- (E) The principal actuarial assumptions used were as follows:

	Years ended December 31					
	2023	2022				
Discount rate	1.30%	1.61%				
Future salary increases	3.00%	3.00%				

Assumptions regarding future mortality experience are set based on the 5th Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

,	Discou	int rate	Future incre	-	
	Increase 0.5%	Decrease 0.5%	Increase 0.5%	Decrease 0.5%	
December 31, 2023 Effect on present value of defined benefit obligation December 31, 2022	<u>(\$ 4,511)</u>	\$ 4,848	<u>\$ 4,741</u>	\$ 4,741	
Effect on present value of defined benefit obligation	<u>(\$ 4,874)</u>	\$ 5,252	\$ 5,153	<u>\$ 5,153</u>	

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The method and assumptions used for the preparation of sensitivity analysis during 2023 and 2022 are the same.

(F) Expected contributions to the defined benefit pension plans of the Company for the year ending December 31, 2024 amounts to \$1,519.

(G) As of December 31, 2023, the weighted average duration of the defined benefit retirement plan is 12 years. The analysis of timing of the future pension payment was as follows:
Within 1 year
1 - 2 Years
3 - 4 Years
More than 5 years

\$

69.583

- B. (A)Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (B) The pension costs under the defined contribution pension plans of the Company for the years ended December 31, 2023 and 2022 were \$27,919 and \$26,094, respectively.

(15) Share-based payment

A. For the years ended December 31, 2023 and 2022, the Company's share-based payment arrangements were as follows:

		Quantity granted	Contract	Vesting

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(18) Retained earnings

A. When allocating the net income for each fiscal year, the Company shall first offset its losses in previous years and set aside a legal capital reserve at 10% of the profits left over, where such legal reserve amounts to the total authorized capital, this provision will not apply. The Company would set aside or fund another sum as special reserve in accordance with the regulations of the Law or the rules of the Authorities, plus the rest of the and Accumulated Retained Earnings of preceding fiscal year (including the adjustment of undistributed earnings), and the meeting of Board of Directors would draft the Proposal for Distribution, and to authorize the distributable dividends and bonuses in whole or in part may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors, and in addition thereto a report of such distribution shall be submitted to the Shareholders'

Meeting. The Company distributing surplus earning in the form of new shares to be issued by the Company in accordance with the preceding paragraphs shall follow the provisions of Article 240 of the Company Law of the Republic of China with a resolution adopted at a meeting of shareholders.

- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. Details of 2022 earnings appropriation resolved by the Board of Directors on February 23, 2023 and by the shareholders on May 30, 2023. 2021 earnings appropriation resolved by the Board of Directors on February 25, 2022 and by the shareholders on May 24, 2022, respectively are as follows:

Other employee benefit expense		29,439		26,097		
Total	\$	838,245	\$	826,645		

- A. According to the Company's articles of association, if the Company is profitable in the year (ie after deducting the employee's remuneration and the director's remuneration from the net profit before tax), employee payout should be between 1% and 20% while directors' payout should be no more than 2%. However, if the Company has accumulated losses (including adjustments to unallocated surplus) these losses should first be offset.
- B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$60,000 and \$50,000, respectively; while directors' remuneration was accrued at \$9,286 and \$8,070, respectively. The aforementioned amounts were recognized in salary expenses. In 2023, the pre-tax net profit for the year was deducted from the employee's compensation and the benefits before the director's remuneration were estimated at 6.1% and 0.94% respectively.

Employees' compensation and directors' remuneration for 2023 and 2022 as resolved by the Board of Directors were in agreement with those amounts recognized in the 2023 and 2022 financial statements, and the employees' compensation will be distributed in the form of cash.

C. Information about employees' compensation and directors' remuneration of the Company as resolved at the meeting of Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(27) Income tax

A. Income tax expense

(A) Components of income tax expense:

	Years ended December 31					
		2023	2022			
Current tax						
Current tax on profits for the year	\$	149,312	\$	139,919		
Tax on undistributed earnings		3,898		1,758		
Adjustments in respect of prior years	(1,946)	(7,444)

C. The board of directors of our company resolved on December 14, 2023 to approve the proposed purchase of 2,170 thousand shares of Parktron Technology Co., Ltd. (Parktron Technology) from its existing shareholders and participants in the cash capital increase, at a price of NT\$30 per share. The total investment amount is expected to be NT\$65,100, and upon completion of this investment, our company will hold a 59.94% stake in Parktron Technology. The investment agreement is currently being drafted, and we anticipate finalizing the contract by the end of February.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

For details of 2023 earnings appropriation proposed, refer to Note 6(18).

12. OTHERS

(1) Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) <u>Financial instruments</u>

A. Financial instruments by category

	Decer	mber 31, 2023	Dece	mber 31, 2022
Financial assets Financial assets at fair value through profit				
or loss	\$	720	\$	-
Financial assets at amortized cost		1,487,586		1,447,778
	\$	1,488,306	\$	1,447,778
	Dece	mber 31, 2023	Dece	mber 31, 2022
Financial liabilities	•	1 (01 044	•	1
Financial Liabilities at amortized cost	\$	1,621,244	\$	1,560,060
Lease liabilities		5,047		7,531
	\$	1,626,291	\$	1,567,591

- Note: Financial assets at amortized cost includes cash and cash equivalents, notes and accounts receivable (including related parties), other receivables and guarantee deposits paid; financial liabilities at amortized cost includes short-term borrowings, notes and accounts payable (including related parties), other payables (including related parties) corporate bonds payable and guarantee deposits received.
- B. Risk management policy
 - (A) The Company's activities expose it to a variety of financial risk: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.
 - (B) Risk management is carried out by a finance department under policies approved by the Board of Directors. Company finance department identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

- C. Significant financial risks and degrees of financial risks
 - (A) Market risk

Foreign exchange risk

- i. The Company operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD, EUR, GBP, JPY and RMB. Exchange rate risk arises from future commercial transactions and recognized assets and liabilities.
- ii. Management has set up a policy to require Company companies to manage their foreign exchange risk against their functional currency.
- iii. The Company's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD, RUR, GBP, JPY and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

iv. The total exchange gain or loss, including realized and unrealized gains or losses arising from significant foreign exchange variations on monetary items held by the Company for the years ended December 31, 2023 and 2022, amounted to profit of \$3,620 and loss of \$27,323, respectively.

Price risk

- i. The Company's equity instruments, which are exposed to price risk, are the financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity instruments, the Company diversifies its portfolio. Diversification of the portfolio is in accordance with the limits set by the Company.
- ii. The Company's investments in equity securities comprise beneficiary certificates. The prices of equity securities would change due to the change of the future value of investee companies.
- (B) Credit risk
 - i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, debt instruments classified as at amortized cost, measured at fair value through other comprehensive income and measured at fair value through profit or loss.
 - ii. The Company manages their credit risk taking into consideration the entire Company's concern. According to the Company's credit policy, each local entity in the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors.
 - iii. The Company adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
 - (i) If the contract payments are past due over 90 days based on the terms, there is a significant increase in credit risk on that instrument since initial recognition.
 - (ii) A bond investment traded at the counter buying center, which has any external rating agency rated as the investment grade on the balance sheet date, and the financial asset is considered to have a low credit risk.
 - iv. The Company adopts the assumptions under IFRS 9 and the default is deemed to have occurred when the contract payments are past due over 90 days.
 - v. The Company classifies customer's notes and accounts receivable in accordance with product types and customer types. The Company applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.
 - vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
 - (iii) Default or delinquency in interest or principal repayments;

- (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vii. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights. On December 31, 2023 and 2022, the Company has written-off financial assets amounted to \$0 and \$0 that are still under recourse procedures.
- viii. The Company uses the forecast ability of National Development Council Business Cycle Indicator to adjust historical and timely information to assess the default possibility of notes and accounts receivable. On December 31, 2023 and 2022, the provision matrix is as follows:

			Ove	erdue	Ove	erdue	Ov	erdue
December 31, 2023	Not or	verdue	1~9	0 days	91 ~ 1	80 days	181 ~	270 days

ix. Ageing analysis of notes and accounts receivable as follows:

The above is an age analysis based on the number of overdue days.

x. Movements in relation to the Company applying the simplified approach to provide loss allowance for accounts receivable are as follows:

-	Years ended December 31							
	20	23	2022					
	Accounts	Accounts receivable						
January 1	\$	113	\$	38				
Impairment loss	(51)		75				
December 31	\$	62	\$	113				

xi. The Company uses the forecast ability of National Development Council Business Cycle Indicator to adjust historical and timely information to assess the default possibility of investment of debt instrument on December 31, 2023 and 2022.

(C) Liquidity risk

The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The contractual cash flow amount disclosed in the following table is the undiscounted amount.

December 31, 2023

Non-derivative financial liabilities	Within 1 year	1 ~ 2 years	2 ~ 5 years	More than 5 years	Total
Lease liabilities Corporate bonds	\$ 2,234	\$ 2,171	\$ 724	\$ -	\$ 5,129
payable	\$ -	\$ -	\$799,900	\$ -	\$799,900
December 31, 2022 Non-derivative	Within 1	1 ~ 2	2~5	More than	
financial liabilities	year	years	years	5 years	Total
Lease liabilities	\$7,321	\$ 230	\$-	\$ -	\$7,551

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: The input value for this level is the open quote (unadjusted) of the same asset or liability in the active market. An active market is a market that meets all of the following conditions: the goods traded in the market are homogeneous; the buyers and sellers with the willingness can be found in the market at any time and the price information can be obtained by the public. The fair value of the beneficiary certificate the Company's investment belongs to.
 - Level 2: The input value of this level, except for the observable price included in the first level public offer, including the observable input value obtained from the active market either directly (such as price) or indirectly (such as derived from price).
 - Level 3: Inputs to this level are not based on observable market data.
- B. Information about the fair value of investment property is provided in Note 6(8)
- C. Financial instruments not measured at fair value

Except for financial assets at fair value through profit or loss, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable (including related parties), other receivables, guarantee deposits paid, short-term borrowings, notes payable, accounts payable (including related parties), other payables(including related parties) and guarantee deposits received are approximate to their fair values.

		Dec	ember	31, 2023		
	_			Fair value		
	Book value	Level 1		Level 2	Level 3	
Financial liabilities: Corporate bonds payable	\$ 760,924	\$	-	\$ 760,962	\$	_

- D. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:
 - (A) The related information about the nature of the assets and liabilities is as follows:

December 31, 2023	Level	1	Level	2	Level 3		Tot	al
Assets:								
Recurring fair value								
measurements								
Financial assets at								
fair value through								
profit or loss								
Convertible bond								
 – call provision 	\$	-	\$	-	\$	720	\$	720
(D) The evolution of	f dominatio	ve fine	naial ing	minant	a ia haa	ad on the	ontion	mining

(B) The evaluation of derivative financial instruments is based on the option pricing model accepted by market users.

- E. In 2023 and 2022, there was no evaluation of the transfer between levels.
- F. The following chart is the movement of Level 3 for the Years ended December 31, 2023

	2	023
	Conver	tible bond
	$-\operatorname{call}$	provision
At January 1	\$	-
Recognition in profit (loss)		
Other gains and losses		320
Issued in this issue		400
At December 31	\$	720

- G. Outside appraiser is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.
- H. The following is the qualitative information on significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at December 31, 2023	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Convertible bond – call provision	<u>\$ 720</u>	Binomial tree pricing model	Volatility	39.68%	The higher the stock price volatility, the higher the fair value

13. <u>SUPPLEMENTARY DISCLOSURES</u>

(1) Significant transactions information

- A. Loans to others: None.
- B. Provision of endorsements and guarantees to others: Please refer to table 1.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): None.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: Please refer to table 2.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: Please refer to table 3.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 4.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 5.
- I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Notes 6(2).
- J. Significant inter-company transactions during the reporting periods: Please refer to table 6.

(2) <u>Information on investees</u>

Names, locations and other information of investee companies (not including investees in Mainland China) : Please refer to table 7.

- (3) Information on investments in Mainland China
 - A. Basic information: Please refer to table 8.
 - B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: For the major transactions between the Company and the Mainland China invested companies in 2023, please refer to table 6.
- (4) <u>Information on investees</u>
 - A. Basic information: Please refer to table 9.

0	AXIOMTEK CO., LTD.	AXUS	1	Sales revenue	738,757	same as that applicable to the general customer receivables collection as per for the average customer, 45 days	11.03%		
0	AXIOMTEK CO., LTD.	AXSZ	1	Sales revenue	71,102	same as that applicable to the general customer receivables collection for the general customer 75 days; 45 - 75 days with slight delay	1.06%		
0	AXIOMTEK CO., LTD.	AXIT	1	Sales revenue	62,717	same as that applicable to the general customer receivables collection as per for the average customer, 45 days	0.94%		
0	AXIOMTEK CO., LTD.	AXSZ	1	Accounts receivable	203,463		2.97%		
0	AXIOMTEK CO., LTD.	AXUS	1	Accounts receivable	14,491		0.21%		
0	AXIOMTEK CO., LTD.	AXSZ	1	Accounts receivable	25,516		0.37%		

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: No other transactions of the same type are available for comparison, and the terms of the transaction are handled in accordance with the terms of the agreement between the parties.

Note 5: The disclosure standard is those with a transaction amount of \$10 million or more.
