P6101

10.4” XGA TFT Monitor

User’s Manual
Disclaimers

This manual has been carefully checked and believed to contain accurate information. Axiomtek Co., Ltd. assumes no responsibility for any infringements of patents or any third party's rights, and any liability arising from such use.

Axiomtek does not warrant or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information in this document. Axiomtek does not make any commitment to update the information in this manual.

Axiomtek reserves the right to change or revise this document and/or product at any time without notice.

No part of this document may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without the prior written permission of Axiomtek Co., Ltd.

CAUTION

If you replace wrong batteries, it causes the danger of explosion. It is recommended by the manufacturer that you follow the manufacturer's instructions to only replace the same or equivalent type of battery, and dispose of used ones.
Safety Precautions

Before getting started, read the following important cautions.

1. Be sure to ground yourself to prevent static charge when installing the internal components. Use a grounding wrist strap and place all electronic components in any static-shielded devices. Most electronic components are sensitive to static electrical charge.

2. Disconnect the power cords from the P6101 Series before making any installation. Be sure both the system and the external devices are turned OFF. Sudden surge of power could ruin sensitive components. Make sure the P6101 Series is properly grounded.

3. Do not open the system’s top cover. If opening the cover for maintenance is a must, only a trained technician is allowed to do so. Integrated circuits on computer boards are sensitive to static electricity. To avoid damaging chips from electrostatic discharge, observe the following precautions:
   - Before handling a board or integrated circuit, touch an unpainted portion of the system unit chassis for a few seconds. This will help to discharge any static electricity on your body.
   - When handling boards and components, wear a wrist-grounding strap, available from most electronic component stores.

Appendix A Supported Input Timing Modes

Function Description of OSD Menu

Appendix B OSD Operation
Chapter 1
Introduction

This chapter contains general information and detailed specifications of the P6101. Chapter 1 includes the following sections:

- General Description
- Features
- Specifications
- Dimensions and Outlines
- I/O Outlets
- Package List

1.1 General Description

The P6101, an industrial 10.4 inches view area LCD Monitor comes with slim, light and reliable features to replace traditional bulky CRT for Industrial application. Its unique flat design is fit for panel mounting, VESA mounts and Wall mounting. The display interface offers DVI-D, HDMI and VGA for different input source from PC system or multimedia system that let you upgrade the display don't change anything from your system. Besides, for varied HMI field, you can choose one of resistive touch or glass interface to meet your application. In addition, this monitor has more comfort, safety, and environmental protection for humanized & health consideration those would be the benefit that users can get.

This LCD monitor builds in color active matrix thin-film-transistor (TFT) liquid crystal display to provide superior display performance. A maximum resolution of 1024x768 is ideal for displaying complex graphics and high definition images. Other outstanding designs that enhance this LCD monitor’s performance are Plug & Play compatibility, and OSD (On Screen Display) controls, especially OSD, it made you ease adjustment on screen image.
1.2 Features
- High contrast color 10.4” XGA TFT LCD display support resolution up to 1024x768
- Flat design with NEMA4/IP65-compliant
- Suits with resistive touch or glass
- High Brightness and Ultra-wide viewing angle with anti-glare features.
- Power management system conforms to VESA DPMS standard
- Advanced OSD control for picture quality adjustment
- Supports VESA ARMs, Desktop Stand Rear, Panel and Wall mounting

1.3 Specifications
- 10.4” XGA(1024x768) LCD with LED backlight
- Resistive Touch or glass
- Front bezel design with NEMA4/IP65
- Control: OSD (On Screen Display) control pad on the side
- Mounting: Support Panel mount, VESA arm mount and Wall mount (optional)
- Net Weight
  - P6101O: 1.59KG
  - P6101P: 1.94KG
- Dimension (Main Body Size)
  - P6101O: 246.3x 192.3x 51 mm
  - P6101P: 277.5x 223.55x 48 mm
- Operation Temperature
  - -20℃ to 55℃
- Relative Humidity
  - 20% to 90% @ 40℃, Non-Condensing
- Power input
  - Screw-type external AC or 12V/24VDC-in
  - Max power consumption: 8W

NOTE: 1. All specifications and images are subject to change without notice.
2. If vibration is over 1GHz, LCD will have twinkle that is a normal phenomenon.
   When the vibration of system goes back 1GHz, the twinkle would disappear.
3. Maximum for Line in: 1V
1.4 Dimensions and Outlines

The following diagrams show the dimensions and outlines of P6101P:

1.6 Packing List

When you receive the P6101, the bundled package should contain the following items:

- P6101 unit x 1
- VGA cable x1
- USB cable or RS-232 cable x1 (for resistive touch version only)
- Adaptor x1 (for AC version only)
- Panel mount kit x 4 (optional)
- HDMI cable x1 (optional)
- DVI cable x1 (optional)
- Wall mount bracket x1 (optional)

If you can not find the package or any items are missing, please contact Axiomtek distributors immediately.
This page is intentionally left blank.
This chapter details the system parts and components with figures. Sections include:

- **System Configuration**
- **Panel Mounting**
- **Wall Mounting**
- **VESA Mounting**

### 2.1 System Configuration

The figure below shows the side views of P6101 series.

1. **Menu:**
   
   Press this button to turn on/off the OSD (On Screen Display) main menu.
   
   Press this button to activate selected items.

2. **SEL+:**

   To scroll up the menu.

   To increase the value of selected item.

3. **SEL-:**

   To scroll down the menu.

   To decrease the value of selected item.

4. **Exit:**

   Jump out the selection icon.

   Auto adjusts.

5. **Power LED:**

   When the light is green, the power is on, red light when stand by.

6. **Power switch:**

   Press this button to turn on/off the monitor.
2.2 Panel Mounting

The P6101 is designed for panel mount application. To mount the P6101, the standard set of mounting kit (included in the system packaging) is needed.

▲ P6101 Panel Mount kits

2.3 Wall Mounting

The P6101 provides VESA mount and wall mount. Screw four screws to fix the kit in the back chassis.
2.4 VESA Mounting

The P6101 provides VESA mount at the back of system. Screw four screws to fix the kit in the back chassis.
2.5 System Jumper Setting

12V DC IN
12V in only: JP3(1-3)(2-4), JP4(1-3)(2-4)

24V DC IN
24V in only: JP3(3-5)(4-6), JP4(3-5)(4-6)
